## Revs-Perfins Newsletter #19

20 October 2007

Art Monghan (LM#3443)

### The first edition of the handbook is finished!!!

First, I wish to express my thanks to all who have contributed over the years to the U.S. Revenue-Perfin Catalog project.

I changed the title just before printing the master copies so that perforated and punched initials, numbers, and designs comes before U.S. Revenues.

It is 882 pages and should weight about 5 pounds on three hole-punched, 20-pound paper. Based on initial estimates of print costs, selling price will probably be around \$50 plus shipping.

#### Future Directions

- Plans are being made for publishing changes, corrections and additions.

- Develop specific versions for different collector communities.
- Sort through thousands of stock sales slips to refine dates of use.
- Develop a "style manual" and start checking for consistency.
- Reorder some entries to group perfins from the same firms together.
- Develop a CD or DVD version of the catalog.

Again thanks to all who helped over the years.

I expect Dave Lighte, Perfins Club Publication Sales Manager will have the catalog within the next month or so.
